

Dear Parents,

Thank you for registering and trusting us with the care of your child for the 2016-2017 school year. We are looking forward to a fun filled and enriching year!

Children of Hope provides a nurturing environment where children and families are encouraged to grow and develop together. Growth is enhanced in all domains: spiritual, cognitive, social, emotional and physical. Children learn through a wonderful combination of play and academics and our program is developmentally and age appropriate for the individual child.

This Enrollment Packet contains the following information:

- Program Overview
- Schedule and Fees
- Registration Form
- Financial Contract
- School Calendar

Please return all forms upon registration. You will receive a Parent Handbook at our Parent Orientation at the beginning of August.

Thank you for blessing us with your child.

Welcome!

Lynn Hockenberger
Preschool Director

Children of Hope Child Development Center makes no discrimination in admissions or determination of enrollment on the basis of race, sex, color, national origin or religion.

Children of Hope is committed to providing a positive and hands-on learning community where children can explore and create. Curriculum happens all day, in every routine, as we nurture the students' spiritual, social-emotional, cognitive and physical growth through child-centered developmental lessons. We form a true partnership with the family to build a strong foundation that will foster a life-long love of learning. Based upon developmentally appropriate practices as described by the National Association for the Education of Young Children (NAEYC), the Evangelical Lutheran Education Association (ELEA) and the Arizona Department of Education's Early Learning Standards, Children of Hope has created a learning community that puts into practice what is known from research of how children learn and best practices in early childhood education.

Children of Hope is an active member of the [Evangelical Lutheran Education Association](#) and the school's director holds membership in the [National Association for the Education of Young Children](#).

More information on these important organizations can be found below:

Our Purpose

- To recognize the uniqueness of each child and encourage self-esteem and individuality.
- To provide a strong, developmentally appropriate academic foundation for each child, helping to ensure future success through kindergarten transition and beyond.
- To provide purposeful work times and opportunities for children to ask questions, pursue ideas, get messy and creative, and thrive.
- To encourage each child to be concerned for others, to cooperate in work and play, and to develop a spirit of sharing.
- To provide an environment where Christian values are not just studied, but lived, with teachers showing examples of Christ's way of love, acceptance and forgiveness.
- To form a partnership with families that encourages growth and success for each child.

Our Program Consists of...

- Degreed/Certified Christian teachers who care about your child's total development and continually work to broaden their knowledge of Early Childhood Education.
- Hands-on experiences which are developmentally appropriate to each child's stage of development.
- Planned experiences for the WHOLE child.

Jesus said: "Let the little children come to me and do not hinder them, for the kingdom of heaven belongs to such as these."

Matthew 19:14

THE TWO YEAR OLD CLASS is a three-hour class that meets two days a week in which a variety of developmentally appropriate learning activities occur. Structuring the environment and planning activities for self-directed play, social interaction and learning is a fundamental part of the program. Curriculum activities include dramatic play, open-ended creative and sensory experiences (painting, sand and water play, modeling clay, collage activities, etc), construction activities with blocks and manipulative toys, gardening, cooking and outdoor activities. Different colors, animals, foods, numbers, shapes, and other topics are explored each day with books, art, and songs. The children get lots of love, attention, and nurturing everyday to make sure they feel safe, secure, and happy. Children do not have to be potty trained to join this class.

THE THREE YEAR OLD CLASSES meet for three hours each day, two or three days per week. This class works toward helping the children verbalize their feelings and needs and toward developing positive social relations. At three, there is more role-play and more cooperative play. By the end of the year, playgroups have increased in size with four or five children interacting in the housekeeping corner or on the playground with imaginative play. There are group times, which include songs, stories, finger plays, art, music, and fun body movement activities. In addition, the children get a strong introduction to early childhood academics. Name and letter recognition, number recognition, one to one correspondence, shapes, etc. are explored and the children get a chance to enhance this academic learning with art projects, activities, and class themes. Games and activities also include making and identifying patterns, shapes, numbers, counting, and sorting. Every day the children have fun and gain a sense of pride and accomplishment with a specific job they are assigned. The children's fine motor skills are strengthened during art activities and children are encouraged to express themselves in the writing center. At first the writing just appears to be scribbles, but this is the beginning of developing the ability to write letters and numbers.

THE FOUR YEAR OLD PRE-KINDERGARTEN CLASSES meet for three hours, three or four days per week. All children in this group, by age, will be eligible for Kindergarten the following year. A typical day in this program provides developmentally appropriate experiences in all domains: cognitive, social, emotional, physical and spiritual. This theme and center-based program allows children to utilize materials in more complex and extended ways. Many of the activities promote the children's phonemic awareness and are critical to early reading success. Early mathematical skills are also developed with graphing, sorting, counting, and basic addition and subtraction. The children practice writing letters and numbers in different activities daily. They also improve their fine motor skills with activities including cutting, painting, coloring, and gluing. Scientific topics are presented to the children in fun and interesting, hands-on ways.

All of our classes include the following:

- Opening Circle (welcome, story time, calendar, music, etc.)
- Small Group Time (art, science, math, writing, reading, etc)
- Outdoor Time (every day the children have large motor skill play in the outdoor play area)
- Bathroom/Handwashing/Snack
- Music/Movement
- Quiet Reading
- Free Choice (small group activities, interest centers open for learning, free play, creative art activities, math and science experiences)

SCHEDULE AND FEES FOR FALL/SPRING 2016-2017

All tuition is based on a yearly amount and is payable in ten installments for August through May school year. Tuition payments are due on the 1st of the month.
